Once you go with VM CODER you will never have to go anywhere else again.

> ## COMPANY VALUE…….

**VM Coder,** is efficient provider of non-cloud and cloud-based platform solutions to help small and medium-sized businesses succeed online. Currently powering over thousands of websites worldwide, we are successfully working in many parts of work.

# VM CODER TECHNOLOGY

## ➢ GLOBAL EXPERIENCE............

We believe and guarantees you to receive a world-class service, based on over 6 years of experience and constant advancement in software development and web products. Our comprehensive customer interface allows you to establish a strong presence for yourself, at affordable prices and in the least amount of time. Our dedicated support team is always available to assist you over the phone, chat or mail, should you face any hic-cups on your way to becoming a leading online business.

Our CRM software consolidates customer information and documents into a single CRM database so business users can more easily access and manage it. The other main functions of this software include recording various customer interactions (over email, phone calls, social media or other channels, depending on system capabilities), automating various workflow processes such as tasks, calendars and alerts, and giving managers the ability to track performance and productivity based on information logged within the system.

Common features of CRM software include:

- **Marketing automation.**
- **Sales force automation.**
- **Contact center automation**.
- **Geolocation technology, or location-based services**.

We ensure to understand our client business so that project outcomes fully support their business aims.
