

GULSHAN R. KORDE

SOFTWARE DEVELOPER

Email Id : gulshan.korde969@gmail.com | Contact No. : 9766522688

EDUCATION

Bachlor of commerce from
Yashwantrao Chavan Maharashtra

Open University - 2021

SKILLS

Programming Languages:

- Python
- JavaScript

Web Technologies:

- Django (REST framework)
- HTMLS, CSS3
- Ajax, JSON

Backend Development:

- Expertise in designing and implementing RESTful APIs with Django for seamless communication between frontend and backend systems
- Experience in database design, query optimization, and ORM (Object-Relational Mapping) with PostgreSQL/MySQL

Quality Assurance & Testing:

- Strong background in writing unit tests and integration tests
- Experience in conducting code reviews and implementing best practices to ensure code quality and maintainability

WORK EXPERIENCE

Associate Software Developer

2022 June - 2024 Jan

Technobase IT Solution Pvt Ltd

- Led frontend and backend dev for client projects, ensuring on-time delivery and meeting requirements.
- Collaborated with cross-functional teams to create intuitive, scalable web apps.
- Implemented automated testing to enhance software reliability.
- Contributed to architectural decisions and maintained high code quality.
- Strong problem-solving skills; adept at explaining complex concepts to non-tech stakeholders.
- Committed to delivering high-quality, scalable, maintainable code.

Software Developer intern

2021 Dec - 2022 MAY

Technobase IT Solution Pvt Ltd

Frontend Development:

- Proficient in HTML, CSS, and JavaScript for creating interactive and responsive user interfaces.
- Experienced in utilizing Ajax for asynchronous data retrieval and dynamic content updates.

Backend Development:

- Advanced knowledge of Python programming language.
- Expertise in Django framework for building efficient and maintainable backend systems.

Quality Assurance:

- Conducts comprehensive testing to identify and resolve issues, ensuring high-quality deliverables.

PROJECTS

Ezee Bot Real-time Communication Features

- Developed real-time communication using Django Channels. Integrated Facebook Messenger and WhatsApp for intuitive chat interfaces.
- Implemented two-factor authentication and data privacy measures.
- Ensured HTTPS, role-based permissions, and robust encryption for user security.
- Deployed scalable architecture for omnichannel communication.
- Conducted regular updates for maintenance and security enhancements.

Conversation Logging and Archiving System

- Implemented secure logging and archiving system for conversations.
- Facilitated efficient retrieval and analysis by user ID, date, or keywords.

PetCare App Backend Development

- Spearheaded backend development, focusing on core functionality.
- Designed and managed APIs for seamless frontend-backend communication.
- Implemented OAuth and token-based authentication for enhanced security.
- Optimized app performance through database query refinement and caching strategies.
- Ensured high code quality with regular bug identification and adherence to standards.
- Documented code architecture and API endpoints for team collaboration.
