## SUMMARY

I am a Software Developer with 1 year of experience in developing innovative software solutions. Proficient in multiple programming languages and frameworks, including Python, Asp.net, and Visual Studio Code. Dedicated to staying updated with the latest industry trends and technologies.

## WORK HISTORY

### Software Developer

**MCN Solutions Pvt. Ltd.**

📅 07/2023 - Present  📍 Noida UP

MCN Solutions is a 17 year old custom software development and outsourcing services provider. We specializes in mobile app and web development for small to mid-sized businesses. Headquartered in Delhi national capital region of India, MCN has its extended offices in USA, UK and Poland.

## PROJECTS

### Spam Word Classifier

AI model is trained on datasets and subsequently categorizes text as either spam or non-spam.
Technologies employed: Python (Language) for development and Asp.Net for tool integration in project.

### Auto Forum Reply

Created an Auto Forum Reply AI system that automatically generates responses when questions are posted.
Technologies employed: Python (Language) for development and Asp.Net for tool integration in project.

### Video Summarizer Tool

Created a Video Summarizer AI system that generates summaries and descriptions by simply inputting a 10-minute video link.
Technologies employed: Python (Language) for development and Asp.Net for tool integration in project.

### Interview Crack

Created Interview Crack, a system that tailors question-and-answer sets based on the job position, along with recommendations for related articles and e-books.
Technologies employed: Python (Language) for development and Asp.Net for tool integration in project.

### Technical Quiz Generator

The Technical Quiz Generator is a AI tool for creating technical quizzes, making it an efficient resource for educators, trainers, and individuals seeking to assess their technical knowledge.
Technologies employed: Python (Language) for development and Asp.Net for tool integration in project.
