

Rahul Kumar

Python Django Developer

Python Django developer 1 year exploiting model-template-view architectural pattern of Django framework to shorten development times and reduce design costs. Specializes in creating accessible, data-driven web assets. Keen to apply expansive development knowledge to deliver fast, efficient projects. Dedicated Python Django developer known for streamlining Python development processes by exploiting open-source web frameworks. Specializes in applying Django to complex database assets with a strong web presence. Comfortable taking over ongoing administration processes or designing customized administration models.

Experience

○ July 2022-Feb 2023

Livefurnish Private limited, New Delhi Kirti Nagar

Junior Python Developer

- We utilized version control systems such as Git for efficient collaboration among team members and seamless code deployment.
- Designed responsive user interfaces with HTML, CSS, Bootstrap, and JavaScript for optimal viewing on various devices.
- They created RESTful APIs using the Django REST framework, enabling seamless communication between front-end and back-end components.
- Streamlined database queries using Django ORM, resulting in faster response times and reduced server load.
- She mentored junior developers by sharing knowledge of Python and Django best practices, fostering a positive team environment.
- Developed custom Django apps to address unique business requirements and enhance system capabilities

○ Mar 2022-Jun 2022

Grazitti Intractive pvt Ltd, Panchkula Haryana
