---

## PROFESSIONAL SUMMARY

---

- Excellent knowledge in Software Development Life Cycle (SDLC).
- Knowledge of Testing application development and quality assurance procedures.
- Solid understanding of internet technologies, basic SQL queries, and GUI design standards.
- I am eager to apply my skills and contribute to the success of the organization.

---

## TOTAL EXPERIENCE

---

- 1.3 year of professional experience in software development, encompassing full-stack development, codebasemanagement and bug fixing.

---

## SKILLS

---

- **Frontend** – HTML 5, CSS, Bootstrap, Reactjs, Nuxtjs, Nextjs, Tailwind CSS.
- **Backend** – Laravel, Nodejs, Reactjs, Rest API, Soap API, CodeIgniter.
- **Database** – MySQL, SQL, MongoDB.
- **Programming Language** – PHP, Python, C language, Core Java.
- **Tools & Technologies** – Git Hub, Docker, Salesforce, Postman API.

---

## WORK HISTORY

---

**Software Engineer**, 10/2023 - Present

**FinEdge Advisory Gurugram**

**Projects:** DIA (Dream Into Action)

### Key Role & Responsibilities:

- Developed and maintained full-stack applications for the DIA (Dream Into Action) project.\
- Led the development of both front-end and back-end components, ensuring seamless integration and functionality.
- Managed codebase using version control systems like Git, ensuring code quality and collaboration among team members.
- Designed and optimized back-end systems for performance, scalability, and security.
- Conducted regular debugging and troubleshooting to address issues reported by advisors, ensuring timely resolution and minimal disruption.

**Associate Software Engineer Intern**, 02/2023 - 08/2023

**Appfoster Innovation**

**Project:** Treasure Game API (03/2023 – 08/2023)

- Developed an exciting treasure-hunting game API using Laravel 8.0, with streamlined content management through the Voyager admin panel and captivating clue system to enhance the gaming experience.

**Project: Human Resource Management (04/2023 – 08/2023)**

- As a full-stack developer, I significantly contributed to the development of HRM software to track employee project progress. Leveraging my Next.js, React, and Tailwind CSS expertise, I played a crucial role in building a robust system. I actively participated in designing and implementing features that enable comprehensive monitoring of project milestones and tasks. I ensured a visually appealing and modern user interface by incorporating Tailwind CSS. Through effective collaboration with the team, I contributed to delivering a solution that empowers organizations to track the progress of all projects efficiently.

**Key Role & Responsibilities:**

- Actively participated in the agile.
- Conducted thorough quality assurance testing to guarantee code reliability, functionality and performance.
- Engaged in client interaction to understand and discuss project requirements.
- Aligned development efforts with client's expectations.
- Delivered solutions that met clients needs.
