Professional Summary

I am a Front-End Developer with more than 5 years of experience. For the past 2 years, I've been working mainly with React.js and similar Technologies. I'm good at working with different teams to make sure we deliver top-notch solutions. My specialty lies in making websites load faster and be more efficient in size. I use smart coding methods and tools to achieve this. People know me for making websites that not only look great but also load super-fast. I am committed to continuously enhancing my skills and staying updated with the latest trends in front-end development to deliver cutting-edge solutions.
