

# TUSHAR DHOKANE

Software Engineer

Mobile: 9834536833

Email: [tushar.93d@gmail.com](mailto:tushar.93d@gmail.com)

LinkedIn: [www.linkedin.com/in/tushar-dhokane93](https://www.linkedin.com/in/tushar-dhokane93)

## PROFESSIONAL SUMMARY:

A highly motivated software engineer with 2.5 years of experience in software development. Proficient in programming languages such as Python, SQL (MySQL, PostgreSQL) with expertise in software development life cycle (SDLC), Agile methodology, and JIRA project management. Experienced in using Git for version control. Strong understanding of internet workings and its protocols. Possesses excellent problem-solving, communication, and teamwork skills, with a focus on meeting project deadlines.

## KEY SKILLS:

- Proficiency in Python
- Object-Oriented Programming (OOP)
- RESTful API Development with Django Rest Framework (DRF).
- Database Management
- Version Control
- Agile Methodology
- Testing and Debugging
- Frontend Development
- Communication and Teamwork
- Data Analysis and Visualization

## TECHNICAL EXPERTISE:

- |                              |                                    |
|------------------------------|------------------------------------|
| • <b>Programming</b>         | Python, SQL                        |
| • <b>Database</b>            | MySQL, PostgreSQL                  |
| • <b>Web Framework</b>       | Django, Flask                      |
| • <b>BI Tool</b>             | Power BI, Microsoft Excel          |
| • <b>Version Control</b>     | Git                                |
| • <b>Libraries</b>           | NumPy, Pandas, Matplotlib, Seaborn |
| • <b>Frontend Technology</b> | HTML, CSS, Javascript              |
| • <b>Project Management</b>  | JIRA                               |
| • <b>Cloud Technology</b>    | AWS                                |

## PROFESSIONAL EXPERIENCE:

Company: **Globe Active Technologies**

Software Engineer | Feb 2022 - Present

Project: **Customer Data Analysis - CDA**

Tools: Python, Django, AWS, NumPy, Pandas.

- Developed a robust web application using Django and Django Rest Framework to manage and analyze customer data.

- Implemented RESTful APIs for data retrieval and manipulation.
- Utilized Pandas for data analysis and validation.
- Generated comprehensive reports (quarterly, half-yearly, yearly) for user data.
- Deployed the application on AWS EC2, ensuring high availability and scalability.
- Maintained and optimized MySQL database for performance.

## EDUCATION:

---

- Bachelor of Engineering in Computer Science from SGBAU University with 7.69 CGPA.
- Higher Secondary School Certificate (HSC) from Nagpur Board: 65.83 %.
- Secondary School Certificate (SSC) from Nagpur Board: 79.07
