EDUCATION

B.E (Bachelor of Engineering), Computer Science Graduating
Chitkara University, Rajpura, Punjab

Aug 2018 - June 2022

TECHNICAL SKILLS

Web Development: Django, REST API (Application Programming Interface) Development, HTML, CSS

Tools: Celery, RabbitMQ, Redis

Programming: Python, JAVA, JavaScript

Database: SQL

Software Engineering: Data Structures and Algorithms, Object-Oriented Programming (OOP)

PROFESSIONAL EXPERIENCE

IB Monotaro (Subsidiary of MonotaRO Corporation), Delhi: Software Developer May 2022 - PRESENT

- Designed and implemented the "IB Coins" feature, allowing users to apply discounts on the total payable amount, inspired by the "Super coin" concept on Flipkart, ensuring a seamless user experience during the discount application process.
- Programmed a virtual credit system called 'IB Credit' while analysis the past order history combined with the credit score of the Business user and accordingly encash those users with the IB Credit which can further be used to place order. This Feature has helped the company grow and increase its traffic by 30% overall.
- Extensive expertise in third-party payment gateway integration, including BuildD, KredX, Rupifi, and successful integration of PayU for lazyPay, Google pay, and EMI options, involving user registration, credit limit assignment, orderplacement, and repayment processes, with a focus on prioritizing user experience and security.
- Created a robust backend system to capture user reviews and ratings on Product Detail Pages (PDPs), Designed an Admin Control and Moderation Panel for review filtering and publishing, enabled filtering to ensure only verified and legitimate reviews are displayed, enhancing user trust and credibility.
- Specialized in bug debugging, resolving critical issues to improve user experience and system stability, while also playing a key role in implementing a feature enabling customers to make partial prepayments for Cash on Delivery (COD) orders, enhancing flexibility and convenience.

IB Monotaro (Subsidiary of MonotaRO Corporation), Delhi: Software Developer Intern May 2021 - April 2022

- Revamped the login flow by prioritizing mobile number and OTP as the primary registration method, coded a flexible login framework with options for email registration and social login, and created a guest checkout flow with an auto-registration feature.
- Integrated WhatsApp with third-party Analytics (Netcore) and Chatbot (OneDirect) platforms, enabling template IDs for direct marketing through promotional messages, automated transactional and order status messages, improved API hit restrictions by 70%, and developed an automated chatbot user flow with template IDs for transactional and product purchase automation.

ACHIEVEMENTS

- Google Kick Start, (f): **3303/10000** Sep 2020 - Oct 2020
- Scored **91.86** percentile, E-litmus PH Test Jan 2021 - Oct 2021

ACTIVITIES

- Participated in Reboot- Earth Hackathon and scored 5th Position 2019
