SUMMARY

Logical and results-driven Web Developer dedicated to building and optimizing user-focused websites for customers with various business objectives. Judicious and creative when crafting effective websites, apps and platforms to propel competitive advantage and revenue growth. Technically proficient and analytical problem solver with calm and focused demeanor.

PROFESSIONAL EXPERIENCE

Raptor Supplies Ltd.   **Mohan Estate, Delhi**
Web Developer   *October 2023 – Present*

Maintained the primary e-commerce platform. Developed custom feature on the e-commerce platform as per requirements from cross functional teams. Created solutions for replacing paid third party services providing custom data pipelines.

Codingcafe Pvt. Ltd.   **Remote**
Backend Developer   *July 2023 – October 2023*

Analyzed client requirement and developed web application conforming to latest web standards resulting in robust and reliable applications whilst meeting the client requirements. Created RESTful APIs as per need for said web application all while collaborating with a cross functional team of QAs, frontend developers and fellow backend developers.

ACCOMPLISHMENTS

Web Developer

- Successfully built custom data pipelines across various third party services (such as Microsoft Ads, Google Analytics 4, etc.) to replace third party services
- Lead a small team of developers to build a custom cart/checkout phase for an existing e-commerce platform using RESTful APIs implemented in Laravel for backend, React for frontend and continually using PostMan to document and test the RESTful API endpoints

Backend Developer

- Developed the backend for an event booking site from scratch using Laravel serving the frontend via RESTful APIs
- Successfully implemented project requirements for an AI driven platform using PHP for making chatbot(s), documents, speech synthesis whilst actively collecting feedbacks and approvals from the client
