PROFILE SUMMARY

As a full-stack developer specializing in React.js and Node.js, I have gained extensive experience over the last year.

My profile can be summarized as follows:

- **Front-end Development:** I am proficient in React.js, a popular JavaScript library for building user interfaces. I have a good understanding of React components, JSX syntax and React Router for handling navigation.
- **API Development:** I have developed RESTful APIs using Node.js and Express.js, implementing features such as authentication and authorization. I am familiar with API documentation tool Postman.
- **Database Management:** I have experience in working with SQL database.
- Developing and maintaining responsive web applications using React.js and Node.js.
- Implementing user interfaces and enhancing the user experience with smooth interactions and visually appealing designs.

TECHNICAL SKILLS

Web Development: HTML5, CSS, JavaScript, XML.

Frameworks/Libraries: React JS, React-Native, Node JS.

DATABASE: MySQL, MongoDB

SAPUI5/FIORI: Implementation, Customization.

Addition Tools used: Figma, QlikSense, and SAP Build.

Manual Testing
