- Collaborated with a team of developers to design and implement responsive web applications.
- Developed and maintained database structures using MySQL, SQL Yog, and workbench and ensured data integrity.
- Integrated third-party APIs to enhance functionality and improve user experience.
- Worked closely with UI/UX designers to implement visually appealing and intuitive user interfaces.

## EDUCATION

### Master of Computer Application

Dr. APJ Abdul Kalam Technical University • 2022-2024

### Bachelor of Computer Application

Allahabad State University Prayagraj • 2019-2022

## PROJECTS

### E-Commerce - B2B and B2C

**Technologies :** CodeIgniter4, HTML, CSS, Bootstrap, jQuery, Ajax, MySQL

Led the end-to-end development of a comprehensive E-Commerce platform catering to both Business-to-Business (B2B) and Business-to-Consumer (B2C) segments. Employed a stack of technologies including CodeIgniter4, HTML, CSS, Bootstrap, jQuery, Ajax, and MySQL to deliver a robust and user-friendly solution.

### Hospital Management System

<https://www.carekaro.in/>

**Technologies :** CodeIgniter4, HTML, CSS, Bootstrap, MySQL

Implemented a comprehensive Hospital Management System (HMS) called "CareKaro" aimed at facilitating seamless management of healthcare operations and enhancing patient care experiences. This web-based application serves as a centralized platform for hospitals, doctors, staff, and patients, streamlining various administrative, clinical, and financial processes.

## **Food delivery**

<https://fatoore.com/>

**Technologies : Laravel, MySQL, jQuery, Ajax, HTML, CSS, Bootstrap**

Developed a comprehensive food delivery platform aimed at enhancing the food ordering experience for customers while providing an efficient system for vendors. Leveraged a diverse set of technologies to create a seamless and user-friendly interface.

## **Senior living solutions**

<https://senior-living.in/>

**Technologies : Laravel, MySQL, HTML, CSS, Bootstrap**

Led the development of a comprehensive senior living solutions platform, aimed at providing elderly individuals and their families with access to tailored care services and assisted living facilities. Leveraged Laravel framework and a suite of front-end technologies to create a user-friendly and efficient platform.

## **Store Management System**

**Technologies : Core PHP, HTML, CSS, Bootstrap, MySQL.**

Developed a comprehensive store management system to streamline operations and enhance efficiency in retail environments. Utilized Core PHP along with a combination of front-end technologies to create a robust and user-friendly platform for managing inventory, sales, and customer data.
