## PROFESSIONAL EXPERIENCE

Newgen Digitalworks Private Limited, Pune, India  
Associate Web Developer - (August 2022 – January 2023)

- Created multiple responsive web pages for AbbVie using **HTML, CSS, JavaScript, Handlebars and Bootstrap**. These pages are professionally designed to ensure seamless display across all devices. With a focus on efficiency and client requirements, our solution offers a visually appealing and user-friendly experience, reflecting **AbbVie's** brand identity effectively.
- Experience in working in an **Agile** environment, **Scrum**, client calls, and delivering functional demos.
- Developed multiple responsive **UIs using CSS media queries** and **LESS** for optimal display across various devices.
- Utilizing the Adapt framework, I've developed responsive e-learning courses for Abbott, integrating **JavaScript, jQuery, React, JSX** and **Backbone.js**. Our solution ensures seamless adaptability across devices, offering an engaging learning experience. With a focus on efficiency and **Abbott's** requirements, our courses are professionally designed to enhance engagement and knowledge retention.
- Proficient in crafting functional requirement documents and guides, producing high-quality mock-ups and prototypes, and adeptly handling **troubleshooting** and **debugging tasks**.

## LEARNING PROJECTS

### Reactify: Seamless Interactivity

**Technologies:** React.js, JSX, Javascript, Css

**Function:** Embark on a seamless journey with my React.js-powered responsive web app. Through innovative integration of **Components, Props, State, and JSX**, witness dynamic user experiences. Real-time updates and interactivity are facilitated by **State management**, ensuring a fluid interface. With **JSX**, enjoy simplified JavaScript syntax intertwined with HTML for enhanced development of React.js capabilities.

**Project Link:** [Reactify](#)

### Wildlife Explorer

**Technologies:** Html, Css, JavaScript

**Function:** Explore the wonders of the natural world with Wild Explorer, a responsive website designed to captivate wildlife enthusiasts. Built using **HTML, CSS, JavaScript, and jQuery**, this site ensures seamless browsing across all devices and browsers. Discover stunning wildlife photography, insightful articles, and interactive features that bring the beauty and diversity of nature to your fingertips.
