Objective:

To succeed in an environment of growth and excellence and earn a job. Which provides me job satisfaction and self-development and help me achieve personal as well as organizational growth.

About Me:

Capable of working in an organized environment as well as a team player, good communication and co-ordination skills and have the required skill set to lead the team as well.

Work Experience:

Webmobril Technologies Duration: [19-Sep-2022] – [Present]

Noida (UP)

- Developed and maintained RESTful APIs using Python Django to support backend functionality for web applications.
- Created dynamic and user-friendly websites using Django for front-end and back-end development.
- Overcame initial challenges as a newcomer to Python and Django, leading the sole development of an E-commerce website.
- Successfully navigated the learning curve, demonstrating resilience and adaptability while working without the presence of a Python developer in the team.
- Effectively handled the complexities of the project, leveraging emerging skills and newfound expertise in Python and Django.
- Steep learning curve included mastering JavaScript and jQuery to enhance user interactivity and overall user experience.
- Accomplished API integration for a mobile application, contributing to the successful completion of two significant projects.
- Collaborated with cross-functional teams to ensure seamless integration and deployment of web solutions.
- Played a pivotal role in optimizing website performance and ensuring robust data security.
- The challenging experience not only enhanced technical proficiency but also built confidence and courage to take on diverse projects in the future.

Technical Skill:

Programming Lang.

C, C++, Python, JavaScript.

Operating System

Windows 10,8,7

Frameworks

Django

Projects:

- **Nuti Food E-Commerce Platform**

As part of my role in the office, I spearheaded the development of Nuti Food, an E-commerce platform aimed at revolutionizing the online food retail experience. Leveraging Django framework and Python, I navigated through various challenges to deliver a highly efficient and responsive platform.

Key Achievements:

Enhanced Performance: Implemented Django framework and Python to enhance the speed and responsiveness of the Nuti Food platform, resulting in a significant improvement compared to its predecessor.

Optimized User Experience: Through meticulous design and development, I ensured an intuitive user interface and seamless navigation, contributing to a more satisfying shopping experience for users.

Overcome Technical Hurdles: Confronted with multiple challenges during the development process, including framework complexities, I adeptly navigated through obstacles to deliver a robust and functional solution.

Measurable Impact: Post-implementation analysis revealed notable improvements in website performance metrics, including faster loading times and increased user engagement, underscoring the effectiveness of the enhancements.

By successfully leading the Nuti Food project to fruition, I demonstrated my proficiency in leveraging technology to drive business objectives and deliver tangible results.

- **HUD Video Recording Application**

As a Backend Developer, I played a pivotal role in the rapid development and successful delivery of a HUD (Heads-Up Display) Video Recording Application. The application allowed users to record videos, capture photos, and store them securely in a database.

Key Contributions:

Efficient Development: Led backend development efforts to create a robust and scalable application within a tight timeframe. Despite the project's initial 15-day timeline, our team delivered the fully functional application in just 7 days.

Client Satisfaction: The accelerated delivery timeline resulted in an impressive first impression on the client. Their positive feedback on the application's functionality and performance highlighted the effectiveness of our development process.

Soft Skill:

- **Effective Communication:** Demonstrated ability to convey complex ideas clearly and concisely, fostering strong collaboration within cross-functional teams.
- **Creative Thinking:** Proven track record of leveraging innovative approaches to problem-solving, consistently contributing fresh ideas and perspectives.
- **Time Management:** Exemplary organizational skills with a knack for prioritizing tasks efficiently, ensuring timely project delivery and goal achievement.
- **Research:** Adept at conducting thorough research to inform decision-making processes, with a keen eye for detail and accuracy.

Awards & Certificate:

Advance Diploma in Computer Application - Shiksha Institute

Acquired comprehensive skills in computer applications, enhancing proficiency in various software and tools.

Deep Dive in C++ - Udemy

Successfully completed an in-depth course in C++, gaining advanced knowledge and practical expertise in programming.

Marketing and Business Strategies - Udemy

Attained a certificate in Marketing and Business Strategies, showcasing a holistic understanding of strategic planning in business development.

Languages:

English: Proficient in written and verbal communication.

Hindi: Native proficiency in written and verbal communication.
