PROFILE

Innovative and meticulous web developer with 6 months of experience designing and implementing scalable web applications using PHP, React JS, HTML, and CSS. Adept at translating business requirements into technical solutions that drive user engagement and streamline operations. Proven ability to collaborate effectively with cross-functional teams to deliver high-quality products on time. Passionate about leveraging emerging technologies to enhance user experience and optimize web performance. Seeking to bring my expertise in front-end and back-end development to a dynamic team.

WORK EXPERIENCE

Full stack developer

Electrogets Technologies Pvt. Ltd.   2024

- Designing and developing robust and scalable web applications using PHP, Bootstrap, HTML, and CSS.
- Taking ownership of both front-end and back-end development tasks, ensuring seamless integration and functionality.
- Collaborating with cross-functional teams to analyze project requirements and translate them into technical solutions.
- Implementing responsive design principles to enhance user experience across various devices and platforms.
- Optimizing application performance through code refactoring, database optimization, and caching strategies.
- Conducting thorough testing and debugging to maintain high standards of quality and reliability.

Full stack developer trainee

Electrogets Technologies Pvt. Ltd.   2023-2024

- Assisting senior developers in designing and developing web applications using PHP, React JS, HTML, and CSS.
- Participating in team meetings and contributing ideas for improving project workflows and efficiency.
- Conducting testing and debugging to ensure the functionality and performance of web applications.
- Learning and applying best practices in coding, version control, and software development methodologies.
- Adhering to project deadlines and contributing to the successful delivery of projects.
