EXPERIENCE

Front-end Software Engineer

Tricode Info Solutions Private Limited.

📅 2021 - 2023 📍 Hyderabad, India

Developed and enhanced new projects

- Assisted in the development of a customer portal using React.js, contributing to a 30% reduction in page load times.
- Implemented responsive designs, ensuring a seamless user experience across various devices.
- Implemented state management solutions with Redux, enhancing application scalability and maintainability.
- Worked closely with the QA team to identify and resolve bugs, resulting in a 15% improvement in application reliability.
- Utilized Git for version control and collaborated with the backend team for seamless integration.
- Collaborated with UX/UI designers to translate design mockups into pixel-perfect, user-friendly interfaces.
- Integrated RESTful APIs to fetch and update data, optimizing application performance.

SKILLS

PROJECTS

Assure AI

AssureAI is a Cloud-based Audit Automation tool for Professional CA firms. The tool enables conducting efficient, paperless audits with zero error, seamlessly communicating with clients from within the tool, generating financial statements in a jiffy, carrying out automated risk assessments, ensuring that audit checkpoints are duly ticked off, and flawlessly controlling the entire audit assignment through a single user interface – all this through a secure cloud platform.

- Developed user-oriented visuals and features using front-end technologies, including HTML, CSS, ReactJs, Redux,React hooks and JavaScript.
- Worked with browsers compatibility issues.
- Used Reactjs Package Manager to manage or install Gulp.
- Used GIT for Version Control of code for incremental development and day-to-day basis to maintain the code history.
- Developed the functionalities under Agile Methodology, JIRA processes and used JIRA for task assignment, bug tracking and fixture.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.

STRENGTHS

Team Player

These include effective collaboration, clear communication, adaptability, reliability, conflict resolution skills, and a supportive attitude. Strong team players also bring diverse skills to the table, are capable of both leadership and followership, maintain a positive attitude, and are committed to the team's success. Their ability to work seamlessly with others fosters a cohesive and motivated team, leading to increased productivity and successful outcomes.

Communication

I developed strong communication skills through consistent practice, engaging with team members, stakeholders, and clients. Additionally, I actively sought feedback and adapted my communication style to effectively convey complex ideas in a clear and understandable manner.

Career Progression

Started as fresher knowing the basics of development and developed my skills to provide effective outcomes for the projects. Enhanced new possibilities according to clients requirements.

PROJECTS

Tutor Bin

TutorBin is an integrated online tutoring platform connecting students with global subject matter experts, offering real-time sessions, homework help, and project assistance. It serves as a one-stop solution for personalized and effective digital learning experiences.

- Design and develop user-friendly interfaces for TutorBin's online tutoring platform.
- Collaborate with UX designers to bring design concepts to life.
- Ensure responsive and cross-browser-compatible designs for a consistent user experience.
- Implement front-end functionalities using HTML5, CSS3, and React.js.
- Integrate UI elements with back-end logic for efficient data flow.
- Optimize front-end performance using best practices.
- Enhance user engagement with interactive elements.
- Create intuitive interfaces for real-time sessions, homework help, and project work.
- Stay updated on UI/UX trends for continuous improvement.
- Collaborate with cross-functional teams and contribute to documentation.
