PROFESSIONAL EXPERIENCE

- **Freelance |** Full stack web developer   **Dec 2023 - Present**

  Experienced freelance full stack web developer proficient in both front-end and back-end technologies. Skilled in creating responsive, dynamic web applications using a variety of programming languages and frameworks to meet client needs efficiently.

- **Netcare Consulting Pvt ltd |** Web Developer   **Sept 2022 - Dec 2023**

  As a web developer at Netcare Consulting, I have successfully delivered various projects using HTML, CSS, JavaScript, and WordPress. My experience includes developing responsive and dynamic websites, ensuring high-quality standards and client satisfaction.

- **Finlux Technologies |** Web Developer   **July 2022 - Sept 2022**

  During my 3-month web developer internship at Finlux Technology, I gained valuable experience in developing websites. I worked on projects that honed my skills in HTML, CSS, JavaScript, and WordPress. This internship provided me with a solid foundation in web development and enhanced my technical abilities.

PROJECTS

- **Loan Services -   (moneyfinserv.com)**
  - Developed a dynamic loan services website using PHP and MySQL for seamless database integration.
  - Designed responsive frontend layouts for an enhanced user experience.

- **Visa Website   -   (gotravellerz.co.uk)**
  - Developed a dynamic and user-friendly visa application website using a combination of modern frontend technologies for a seamless and intuitive user experience.

- **Game website   -   (triumph777.com)**
  - I developed a game services website, utilizing HTML and CSS for the frontend to design the layout. For backend functionality, I employed PHP for server-side processing and MySQL for seamless database connections within the forms.

- **Online CSCS cards -   (applycscscardonline.com)**
  - I developed a UK CSCS cards online services website with HTML/CSS for frontend design and PHP/MySQL for backend form processing, ensuring seamless user interactions and database connectivity.

- **Netcare consulting -   (netcareconsulting.com)**
  - Built a digital marketing services website using HTML/CSS for frontend design and PHP/MySQL for backend form handling. Integrated a seamless user experience with responsive design and database connectivity.
