Pallavi Bachkar

Angular Developer

Email: bachkarpallavi99@gmail.com

P h o n e : + 9 1 7 5 5 8 7 4 5 7 3 5

- **3.1** year of experience in responsive UI development and website development, Web Designing. Insightful knowledge of diverse technologies such **HTML, CSS, JavaScript, ECMAScript, JSON, Angular 12/14,Rxjs,NgRX Typescript, Boostrap.** Proficiency in Primeng and Angular libraries.
-

Professional Summary

- User Interface (UI) applications and professional web applications Designing using **HTML5, CSS3,SAAS, FIGMA, AJAX, JSON,** and **XML** are my specialties.
- A solid understanding of **JavaScript, TypeScript, JQuery, Angular.**
- I developed and tested code using **Angular 14/16**, which combines web applications and component based MVC capabilities to improve development and testing efficiency.
- Developed websites using the **Bootstrap and Material CSS frameworks**.
- I have been involved in **SCRUM** meetings to monitor the status and issues of the project.
- Having good knowledge as well working experience with **Test-Driven Development and Agile Methodology.**
- A thorough understanding of the **Software Development Life Cycle (SDLC)** process, including designing, developing, testing and implementing.
- Working experience with a defect tracking tool such as **JIRA**.
- Have worked on **Angular** components, controllers, directives, services, routings and events.
- I have extensive experience with the **Angular framework** and have worked on versions JS and above of this framework.
- Individually and in collaboration, capable of learning and delivering solutions quickly.
- Working on a team, including discussions, design, work estimation, code review, peer review, and daily progress reports.
- Cleaver in working on **Restful web API's,Third Party APIs** and integrating.
- An understanding of the **Document Object Model (DOM)** and its functions.
- A working knowledge of **GIT Hub** for managing source code and version control.
- Tested **cross-browser compatibility** of different elements and tags, using Google Chrome, Firefox and Safari.
- Having experience with the **Visual studio code** and **notepad++**.
- Extensive experience working with **Angular** as a Developer.
- Extensive exposure to **Webpack,Content Management Systems (CMS),web services (WSDL, SOAP, REST), web services (WSDL, SOAP, REST)**

Professional Experience

Insource Software Technology, Pune

June 2021 to Till date

Project : Lobbytrack
Client Name: Lobbytrack
Domain: Visitor management system (VMS)
Role: **Angular Developer**
Technologies: HTML5, CSS3, Typescript, Javascript, Angular 14, ES6,TypeScript. SDLC
Project Details: Lobbytrack is the industry leading visitor management system for signing in and registering visitors with option for on-premise. It is a web-based solution designed to optimize visitor management processes in residential apartment complexes. It offers features like pre-registration, QR code-based check-in, real-time monitoring, access control integration and visitor history tracking. Employees can pre-register their visitors online before they arrive via Lobbytrack web-based online system, Lobbytrack Lobby App, or Lobbytrack Employee App. When the visitor arrives on-site, they can quickly sign in using the Lobbytrack Lobby App. If a visitor has not been registered in advance, you may register them when they arrive. Lobbytrack visitor registration software can auto-populate visitor record if a visitor has visited the facility in the past
Key Features:

- Sign Visitors In And Out: Pre-registered visitors can quickly sign in and out by scanning the barcode in their
- confirmation email or looking up their record
- Register New Visitors: If a visitor has not registered in advance, they can register on arrival
- Ask Screening Questions: Present visitor with a set of simple yes/no health, safety or compliance questions.
- Pre-define acceptable response and only allow visitor to proceed with sign in if they meet the screening criteria. Alert lobby staff when a visitor fails to meet admission requirements
- Take Photo: Take the visitor's photo using the tablet's built-in camera. Include captured photos on visitor
- badges and in notifications
- Notify Host When Visitor Arrives: Notify the visitor's host via e-mail or SMS when their visitor arrives.
- Host can also view their visit schedule and receive instant notifications
- Issue Access Cards On Sign In: Issue pre-programmed access cards when visitors sign in via Lobbytrack
- visitor management system
- Lobbytrack Guard App: The Lobbytrack Guard app helps secure your facility by providing real-time data on who is currently on-site. Alerts will keep you up to date as visitors sign in and out and immediately notify you if someone on the watchlist tries to register

Roles and Responsibilities :

- Working as front end developer responsible for handling all UI related activities
- Creating a web page as per VD or Wireframe
- Consuming API as per business logic using Angular
- I will be the part of product grooming session for requirement gathering
- I will be the part of demo to stakeholder of my user story
- Responsible for analysis, design (LLD/HLD) and implementation of code
- Estimating work effort and providing realistic timelines
- Co-ordinated with POs regarding the enhancements
- Creating unit test cases using Jasmine framework
- Using Git to manage and track changes to the codebase
- Using POSTMAN for API testing
- Responsible for creating RWD using media query, Bootstrap
- Collaborate with UX designers, back-end developers, and other stakeholders to translate design concepts into functional UI
- Checking JIRA/mail on daily basis
- Connecting with backend team for discussing API logic
- Attending daily scrum for the updates

Technical Skills

Web Designing: HTML, CSS, SASS, RWD, Media query, Browser compatibility
Scripting: JavaScript, TypeScript, ES6
Data Base: Maria DB, MySQL
Development Tool: STS, Visual Studio code
JS Frameworks: Angular 12/14/16, AngularJS
JS Library: jQuery, Highlight.js, Cron.js, Plotly.js
Version Control Systems: Git
Methodologies: Agile
API Testing Tool: POSTMAN
Tools and Applications: JIRA, Scrum, Confluence
Code Merging tool: Beyond Compare

Education

- **B.E. (Computer)   (2020)**
- **H.S.C. S.S.C.   (2016)**
- **(2014)**

Personal Details

- **Full Name**   : Pallavi Bhimraj Bachkar
- **Date of Birth**   : 26.12.1998
- **Marital Status**
- **Nationality**   : Married
                        : Indian
- **Languages Known** : English, Hindi, Marathi
