<b>IDE:</b>	Visual Studio Code, Sublime Text, PyCharm
<b>Databases:</b>	MySQL, PostgreSQL
<b>Operating Systems:</b>	Windows
<b>Other Tools:</b>	GIT, GitHub, Vercel
<b>MicroSoft</b>	Word, Excel, PowerPoint
<b>Frontend Toolkit</b>	Bootstrap, Tailwind CSS

## EDUCATION

- MSc in Computer Application, Gitanjali College (BU)
- BSc in Computer Application, Gitanjali College (BU)

## PROFESSIONAL EXPERIENCE

**Software Engineer Nexus System PVT LTD**

*February 2021 – Present*

## PROJECTS

**Project:** Building Products Corporation

**Client:** Home Depot

**Role:** Full Stack Developer

**Technologies Used:** HTML, CSS, JavaScript, React.js, Python, Django, React.js, PostgreSQL, RESTful APIs

### **Responsibilities:**

#### **1. Full Stack Development:**

- Led the development of responsive and user-friendly interfaces using React.js.
- Implemented server-side logic and business processes using Django.
- Managed data transactions and storage using PostgreSQL.
- Designed database schemas and managed ORM models in Django for efficient data handling.
- Designed an Inventory Management System and developed a full-scale CRUD application using RESTful APIs.
- Designed and integrated RESTful APIs to enable real-time order tracking and management.
- Ensured seamless communication between front-end and back-end components.
