WORK EXPERIENCE

Software Developer Fourbrick Technology

04/2023 - 04/2024

Noida , sector -16

Technology used : - HTML, CSS, JavaScript, Mongodb, Python Flask,Django Framework, Core Python

- I have experience working as a backend developer on multiple projects such as Acoxt (similar to an e-commerce platform), LMS (Learning Management System), and Tiaron (a clothing brand website).
- Additionally, I have contributed to the UI development of the Tiaron website. Throughout my tenure.
- I consistently ensured timely completion of all projects.
- I possess skills in database administration, error handling, and implementing responsive web designs, all while collaborating effectively with senior developers.

PROJECTS

Acoxt -khoka Store website (04/2023 - 08/2023)

- I have created APIs for web, Android, and iOS platforms.
- Successfully established a multi-level seller structure with a clear division of roles.
- Implemented a flexible delivery system, providing customers with both self-collection and home delivery options.
- Developed robust APIs that support cross-platform compatibility (web, Android, iOS).
- Streamlined the platform's operations through effective super admin and seller coordination.

Tiaron - clothing website (08/2023 - 12/2023)

- Developed a functional apparel shopping website, facilitating client inventory management and product sales.
- Enhanced user experience with intuitive webpage designs and easy navigation.
- Implemented effective inventory management tools, enabling clients to maintain optimal stock levels.
- Contributed to the success of the project by creating webpages that support customer engagement and sales.

blogging website (01/2024 - 04/2024)

- Developed a blogging platform with a user-friendly admin panel for content management.
- Enabled seamless post management, allowing admins to quickly update and schedule new content.
- Created a responsive front-end that showcases the latest blog posts to users, enhancing engagement.
- Implemented a system for content moderation, ensuring the quality and accuracy of published posts.
