PRINCE PAL

SOFTWARE ENGINEER

I am a highly motivated and results-driven Software Engineer with a strong focus on both frontend and backend development, seeking a position to leverage my experience, skills, and knowledge in creating reliable and efficient systems. My expertise encompasses developing robust backend solutions and ensuring seamless integration with frontend systems, optimizing performance across the full technology stack. I have a solid background in database management, server-side logic, and API development, along with proficiency in frontend technologies. I am passionate about troubleshooting and resolving issues promptly to maintain smooth operations. My goal is to contribute to the organization's success by delivering scalable, high-performance applications and collaborating effectively with cross-functional teams to create comprehensive solutions that meet user needs.

PROJECTS

Mandy Dance Academy

- Instructed a diverse student body in various dance styles, catering to children aged 3 to 7 years old and 8 to 12 years old, for over 20 years. Developed and implemented tailored lesson plans to accommodate different skill levels and age groups, fostering a supportive and inclusive learning environment. Choreographed and directed performances, recitals, and showcases, showcasing students' talents and fostering teamwork and confidence. URL:- <https://mandydanceacademy.com/>

Stove Vintage Furniture

- The chairs and tables would feature classic designs that withstand changing trends, ensuring they remain relevant and stylish for years to come. This could involve clean lines, elegant shapes, and minimalistic aesthetics that appeal to a wide range of tastes. STØV might indeed utilize rare or high-quality materials in crafting their chairs and tables, such as sustainably sourced woods, premium metals, or unique textiles. These materials add to the perceived value and exclusivity of the products. URL:- <https://www.stovfurniture.com/>

Moving of America

- Moving of America likely handles local moves within New Jersey and the tri-state area. These projects involve transporting household or office items from one location to another within a relatively short distance. For clients relocating to another state or across the country, Moving of America provides long-distance moving services. These projects involve careful planning, coordination, and transportation over significant distances. Additionally, Moving of America may also assist clients with international relocation, helping them move their belongings to destinations overseas. URL:- <https://www.movingofamerica.com/>

Biomed Orthopedics

- Biomed Orthopedics offers a wide range of quality stainless steel and titanium orthopedic implants and instruments. Our company prioritizes top quality in all products delivered to customers. Additionally, we provide the option for products to be pre-sterilized with gamma irradiation, ensuring safety and sterility for surgical procedures. URL:- <https://biomedorthopedics.com/>

Beekeeping Kosmus

- Kozmus Beekeeping offers excellent bee products from our location in Pilštanje, nestled in unspoiled nature amidst meadows, vineyards, and orchards. With approximately 120 bee families, we produce a variety of high-quality bee products. Visit us to discover our story firsthand. URL:- <https://cebelarstvo-kozmus.si/>

ACHIEVEMENTS

Software Engineer

Departmental Association Member Cliffex Software Consulting Private Limited: Enhanced team collaboration and process efficiency over 1.7 years by leveraging expertise in both web and mobile application development.

Frontend Technologies

Applied skills in HTML, CSS, JavaScript (ES6), React JS Frameworks to create responsive, user-friendly interfaces for both web and mobile applications.

Backend Technologies

Utilized SQL, MySQL, MongoDB, Laravel Framework, PHP and PostgreSQL for robust backend solutions, including database management and server-side logic. Developed and tested APIs using Postman to ensure seamless integration and functionality across web and mobile platforms.
