Work Experience

Frontend Developer

Mar 2023 – Oct 2023

Aqusag Technologies

Noida

- **Work Order Management System:**

- Created visual prototypes from verbal client requirements for various projects, ensuring accurate translation of client needs into functional designs.
- Managed daily updates to visual representations, ensuring alignment with client requests.
- Provided occasional support to the React development team, helping resolve frontend challenges and contributing to the overall project success.
- Ensured high-quality, responsive design and user experience across various devices and browsers.

- **Internal Website Development:**

- Created and implemented the complete redesign of the company's website, focusing on a modern, user-friendly interface using HTML, CSS, Bootstrap and JavaScript.
- Utilized Figma to create wireframes and prototypes, ensuring a visually appealing and functional user interface.
- Reduced the average page load time through optimized code and efficient use of resources.

Skills

HTML | CSS | JavaScript | Bootstrap | React JS | React Router | Tailwind | Node JS | Figma | GIT
