Contact: 9131081332

Address: Indore, Madhya Pradesh

A dedicated Software Engineer with 1 year of experience. Proficient in Python. Eager to leverage my skills in data science to contribute to innovative projects and further enhance my technical expertise.

EXPERIENCE

July 2023 - July 2024

Software Developer, *Imenso Software*

Convert UI/UX design wireframes and prototypes into functional and responsive web pages.

Utilize and implement front-end frameworks and libraries and enhance web applications.

April 2022 - April 2023

Data Science Intern, *Hogetic Lab*

Extracted, cleaned, and transformed data using Pandas and regular expressions, ensuring high-quality datasets for analysis.

Worked on text classification using the BERT model, contributing to accurate and efficient NLP solutions.

PROJECTS

WhatsApp Chat Analyzer

- Analyzed WhatsApp chat data and generated statistical and graphical reports.
- Implemented backend features in a group project, leveraging Python and data processing libraries to extract meaningful insights.

DS_Data Acquisition

- Extracted data from Wikipedia pages and processed it for analysis.
 - Extracted dump data and understood the structure of web pages.
 - Created algorithms using Python's "re" module and Pandas library to convert data into table format.
 - Uploaded processed data to BigQuery for further analysis and storage.
-

SKILLS

Language: JavaScript, Python

Frameworks/Libraries: Pandas, NumPy, Flask

Version Control: Git/Github/Gitlab

Database: MySQL

EDUCATION

July 2019 – June 2023

Bachelor of Technology, Computer Science
Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore

April 2018 – May 2019

12th, MP Board
Vasundhara Public High School

April 2016 – May 2017

10th, CBSE
St. Mary's Higher Secondary School

ACHIEVEMENTS AND CERTIFICATIONS
