I am a frontend developer with 1 year of experience working as frontend developer in Mito infotech and Expert in HTML5, CSS3, Bootstrap, Javascript, react.JS, redux, router, GitHub. Adapt at contributing to a highly collaborative work environment finding solutions and determining customer satisfaction.

TECHNICAL SKILLS

- **Web Technologies**:- HTML5, CSS3, JavaScript (ES-6), SCSS, JQuery, React.JS, Redux, Hooks, Router.
- **Tools & Technology**:- GitHub, VS Code, Figma, Vercel, JSON.
- **Framework**:- Bootstrap, Tailwind CSS

WORK EXPERIENCE

- **Duration**:- Currently Working in MITO INFOTECH from July 2023.
- **Designation**:- Front end Developer | Developed responsive and interactive websites using HTML,CSS and JavaScript.

PROJECTS

❖ **Food-Website:-**
In this user can order the food and users can read reviews and ratings for the website. Also they can ask for their query with the owner and add the basic pages like home, about, menu and contact us. This website shows an user interface and update the menu with all available options so that it eases the customer work.
Technology Used- HTML, CSS, Bootstrap and Javascript.

❖ **E-commerce-Website:-**
It is a multi-pages website and a fully responsive user can buy the product help from the product section. Many features of this website like home, product, about, contact and add to cart section. If user clicks cart button the product will be added to the cart section and the user can also remove the product from the cart section.
Technology Used- HTML, CSS, Javascript, Bootstrap, Jquery, NPM.

❖ **Calculation-Companion:-**
In this user can add, subtract, divide and multiply numbers. And there are many options available for the user he can delete the number and do it all clear and the user can also calculate square root of numbers.
Technology Used- HTML, CSS, Javascript.

❖ **Weather-App (Learning-Project):-**
With the help of this app, a user can check the weather of any city. When user enter city name then he can see the Weather, humidity and wind speed related to the city. This project has helped me a lot in enhancing my skills.
Technology Used- HTML, CSS, Javascript.
