ROLES:

- Database Management
- Design Websites
- High-Level Web Framework

FASTAPI

SKILLS:

- Python, Django, PostgreSQL, SQL, AWS NoSQL,

Work Experience

- Currently working as a **senior system engineer in cognizant, Mumbai** from March 2022 to till date

Professional Experience

Project 1 – PepsiCo Management system for PepsiCo foundation

Roles: Backend Database

- Currently working on Data Management
- Working on financial reports and Budgets
- Working on HTML Documentation by using chart.js library
- Sending HTML by render function to the client site
- Utilize PostgreSQL for database design, optimization.

Project 2 – Vault tracking system VTS for Papa John's International, Inc.

Roles: backend Database

- Created user authentications registration page from Django-Admin
- Worked on class models. Model and provide full access to the client
- Checking the website and parameters by psycop2 library
- Worked with the configuration of setting.py file
- Worked on the template of main page and sending data using jinja 2 techniques
- Worked on data base manipulation and navigation by cursor
- Worked with clause

Project 3 -telecom consumer complaint from simply learns

Roles: data management

- Import the file in Integrated development environment (IDE) from panda's library\
- Checked the top 10 complaints by consumer with date and timing
- Created a graphic method of consumer complaints by matplotlib library
- Checked the highest number of unresolved complaints by NumPy

Education Details

Degree/Certification	Year of Award	University
SSC	2013	Guru Nanak High School
HSC	2015	Sindi Hindi Junior College
BSc (Computer Science)	2018-2021	Nagpur University
