Software Engineer

Autozilla Solutions Pvt. Ltd.

May 2023 - Present

Junior Web Developer

Epocketpay Solutions Pvt. Ltd.

November 2022 - May 2023

Web Development Trainee

CS Soft Solutions Pvt. Ltd.

February 2022 – October 2022

PROJECTS

Employee Attendance Management System

PHP, CodeIgniter, MySQL, JavaScript, AJAX, CSS, HTML

This project enables employees to punch in/punch out for their attendance once a day, along with breaks in/out. Employees can also request leave and check the status of their requests. Additionally, they can view a list of their attendance history. The attendance history page displays the attendance records of the logged-in employees based on the chosen date range.

SKY PNR

PHP, CodeIgniter, MySQL, JavaScript, AJAX, CSS, HTML

This Based on flight ticket booking, I have designed the frontend with user and admin login panels. The admin panel includes functionalities such as adding airlines, managing seat allocation lists, processing ticket bookings, defining airline routes, and more.

POS

PHP, CodeIgniter, AJAX, JQuery, JS
