Education

Greater Noida Institute of Technology
Master of Computer Application (MCA)
Greater Noida, India | 2021 – 2023

Projects

Liamtra | liamtra.com

Tour and Travel Platform | 03/2023 – 07/2023

- Developed a Laravel admin panel managing 15+ modules for flights, hotels, and tours.
- Migrated and enhanced the existing admin panel from CakePHP to Laravel, ensuring seamless functionality.
- Resolved data flow inconsistencies, managing TBO API integration for reliable bookings.

Mywava | mywava.com

Hiring Platform for Africa | 04/2023 – 01/2024

- Created secure APIs for resume building, job plans, and real-time push notifications.
- Built an examination system to assess candidate skills, supporting confident hiring decisions.
- Enabled real-time hiring updates with push notifications, enhancing user engagement.

Biostaffic | biostaffic.com

US-based Hiring Platform for Scientists | 12/2023 – 06/2024

- Developed secure login, notifications, and resume management web APIs tailored for scientific hiring.
- Enabled skill assessments with an examination and scoring system in Admin LTE.

Concept Crafters

E-commerce Platform for Arts | 11/2023 – 06/2024

- Designed a badge-based engagement system for user interaction.
- Delivered Flutter-compatible APIs, enabling a unified app experience across devices.

Air Duniya

Tour and Travel Platform | 06/2024 – Present

- Integrated TBO API with Django for dynamic flight and hotel bookings.
- Developed offline booking features for B2B and B2C clients.
