## EXECUTIVE SUMMARY

---

Highly skilled and motivated Software Developer with over a year of experience in developing and maintaining web applications using PHP, Angular, and MySQL. Proven track record of implementing new features, optimizing existing functionalities, and collaborating with cross-functional teams to deliver high-quality software solutions. Adept at troubleshooting and debugging issues, integrating third-party services, and continuously improving development processes through the adoption of new technologies. Currently pursuing a Master of Computer Application (MCA) and holding a Polytechnic Diploma in Computer Science and Engineering. Committed to delivering scalable and maintainable solutions that enhance user experience and application performance.

## PROFESSIONAL EXPERIENCE

---

### APPLICABLE TECHNOLOGIES

Greater Noida

Software Developer

3 July 2023 - 31 July 2024

- **Developed and maintained web applications** using PHP, Angular, and MySQL, ensuring seamless functionality and user experience.
- **Implemented new features** and optimized existing ones from end-to-end, improving application performance and scalability.
- **Collaborated with cross-functional teams** to design, develop, and deploy new features, ensuring project deadlines and objectives were met.
- **Worked extensively with RESTful APIs** to integrate third-party services and enhance application capabilities.
- **Troubleshooted and debugged** issues, ensuring minimal downtime and optimal performance of web applications.
- **Continuously researched and implemented new technologies** and tools to improve development efficiency and application performance.

## PROJECTS

---

Project 1 – SNPL Distribution App (Nepal)

Duration (3months)

Role & Responsibility

- **Designed the application architecture**, ensuring a scalable and maintainable structure.
- **Integrated third-party APIs** to incorporate a Nepali language calendar, enhancing the app's localization features.
- **Developed RESTful APIs** to facilitate seamless communication between PHP backend and Angular frontend, ensuring efficient data display on the portal.
- **Implemented dynamic and interactive graphs** using Angular, providing insightful data visualizations to users.

Project 2 – ITC VanDs App (India)

Duration (6months)

Role & Responsibility

- **Developed modules using PHP and Angular** to enable the downloading of Excel and PowerPoint files, improving data accessibility and presentation for users.
- **Designed and implemented** efficient backend logic in PHP for data processing and file generation.
- **Created intuitive frontend interfaces** in Angular, ensuring a seamless user experience for downloading reports.
- **Collaborated with the team** to integrate the modules into the existing system, ensuring compatibility and optimal performance.

## Project 3 – Toyota Testimonial Portal

### Role & Responsibility

Duration (3months)

- **Developed a dynamic modal** to display testimonial videos fetched via API, enhancing user engagement and experience.
- **Implemented features** to allow users to easily close the modal, ensuring a seamless and intuitive interaction.
- **Integrated API functionality** to fetch and display videos efficiently, ensuring up-to-date and relevant content.

## EDUCATION

---

- Pursuing Master of Computer Application (MCA)
- Polytechnic Diploma in Computer Science And Engineering from Board of Technical Education Lucknow.

## TECHNICAL SKILLS

- HTML, CSS, JavaScript, Angular(Basic), PHP, Node.js (Basic), C (Basic), MongoDB(Basic), Ajax(Basis) , MySQL
