I am an experienced Software Engineer with over 3 years in IT, specializing in developing and implementing software applications using PHP and Laravel. I am proficient in delivering high-quality solutions that enhance user experience and operational efficiency. My background includes hands-on experience in back-end development, strong collaboration skills, and the ability to optimize code for best practices.

EXPERIENCE

Chetu, Noida — Software Engineer

JUN 2023- NOV 2024

Executed web development projects as a Software Engineer.

Developing applications in alignment with coding, debugging, and collaborating with cross-functional teams to deliver high-quality software.

I primarily use technologies like PHP, Laravel, Javascript and REST APIs, along with tools like Git. I also ensure code optimization and maintain best practices in coding standards.

Zest Geek Solutions, Mohali — PHP Developer

JAN 2022 - JUNE 2023

Gained hands-on experience in back-end development using PHP, Wordpress and Bubble.io, focusing on building user-friendly interfaces, implementing effective data management strategies, and deploying scalable web applications. Enhanced technical expertise and the ability to deliver impactful, real-world solutions that meet user needs.

NEXAVAR SOFTWARE SOLUTIONS, Mohali — Trainee PHP Developer

JULY 2021 - DECEMBER 2021

Created an e-commerce platform called Gadgets Hunts using PHP.

Developed a comprehensive admin panel for managing product listings and orders within the Gadgets Hunts website.

Integrated a secure payment gateway using PayPal API keys, enabling seamless online transactions for gadget purchases.

EDUCATION

IK Gujral Punjab Technical University, Punjab — Bachelors of Technology

JAN 2018 - JAN 2022

Information Science And Engineering

MODEL MULTIPLE COLLEGE, Nepal — Class XII

JAN 2016 - JAN 2018

PCM

St.Xavier's High School, Nepal — Class X

MAR 2015-MAR 2016

General

PROJECTS

Physician Connects — Laravel

Developed a comprehensive office management program that connects physicians, pharmacies, insurance providers, and patients.

Developed a secure physician portal in Laravel for Physician Connects, allowing physicians to view patient appointments using a user-friendly JS calendar.

Developed an admin panel within Physician Connects office management program for physicians to efficiently manage patient appointments.

SKILLS

PHP
MYSQL
Laravel
API integration
HTML, CSS, Javascript
Jquery, Ajax
Git & Gitlab
Object-oriented programming.

AWARDS

Silver medalist in Basketball at Inter College Basketball, IKGPTU.
Won Various Prizes at district level in quiz competitions, essay writing.
Worked as Campus Ambassador in the placement cell at college.
NCC cadet since 2018.

LANGUAGES

English, Hindi, Nepali

PERSONAL INFORMATION

Father's name: Prabhas Singh
Mother's Name: Manju Singh
Permanent address: Tumaul, Bihar
Darbhanga, India 847405
Date of Birth: 04/12/1999
Marital Status: Unmarried
Religion Nationality: Indian

Restoration Sash And Door — Laravel,MySQL

Developed a dynamic product configuration platform: Leveraged Laravel's robust framework to create an intuitive interface allowing users to customize window and door specifications, generating real-time 3D models and cost estimates.

Implemented a secure and efficient order management system: Utilized Laravel's features to manage the entire order lifecycle, including partial payment processing, production scheduling, and delivery tracking.

Integrated a user-friendly dashboard: Built a personalized dashboard for customers to monitor order status, make payments, and access product information, enhancing the overall user experience.

Gadgets Hunts — PHP,HTML,CSS,MYSQL

Developed a robust admin panel leveraging PHP to manage product listings and order processing within Gadgets hunts, ensuring efficient e-commerce operations.

Built a comprehensive e-commerce website (Gadgets_hunts) from scratch using PHP, encompassing both server-side and user-facing functionalities.

Integrated a secure payment gateway utilizing PayPal within Gadgets hunts, enabling seamless online transactions for gadget purchases.

CuteEnglishTeacher.ai — WordPress

Enhanced student engagement on CuteEnglishTeacher.ai (WordPress) by integrating DeepBrain.ai's AI script, allowing students to utilize AI-powered learning features.

Implemented a secure One-Time Password (OTP) verification system for CuteEnglishTeacher.ai, safeguarding student accounts and ensuring responsible AI access.

Developed a dynamic 10-minute timer using JavaScript for CuteEnglishTeacher.ai.

Wish Sponsor — WordPress

Developed a custom WooCommerce theme for Wish Sponsor to facilitate interactions between influencers and their fans.

Created personalized influencer profile pages allowing influencers to showcase their wishes and receive donations from fans.

Implemented a secure payment gateway to process donations from fans and facilitate the delivery of gifts to influencers.

RoyalTruckEquipment-SCM — WordPress

Built a comprehensive online platform using WordPress and Elementor to showcase a wide range of truck models, including detailed specifications, high-quality images, and informative videos.

Implemented a user-friendly navigation system to allow visitors to easily filter and search for trucks based on their specific needs.

Integrated a powerful search functionality to enable quick and efficient product discovery.
