PROJECTS

Linkedin Automation Script

- Tech Stack:** Python, Selenium.
- Created a Python and Selenium script to automate LinkedIn job search and networking by sending personalized connection requests, automating job applications, and following up with customized messages.
- Designed to mimic human behavior with random delays and daily limits, it avoids detection and maintains account safety. The script also uses NLP for keyword optimization and logs actions for tracking job search progress, boosting productivity while complying with LinkedIn policies.

AireBrokers Real Estate API and Admin Panel

- Tech Stack:** Django, Flask, DRF, MQTT, MongoDB, Bootstrap, HTML, CSS, Javascript, supervisor, Minia Dashboard, PdfJs.
- Created all APIs for web portal and mobile app including authentication, media, documents, properties, customer-service and buyer-seller properties chat with documents sharing functionality.
- Developed an Admin Panel in Django for responding user queries through chat (Customer-service) with user authentication functionality to manage users , documents, media and chats by customizing Minia dashboard pages using django templating and integrated with API.
- Implemented the Answer marking functionality with multiple input types on Admin UI and APIs for inserting answers on the marked places for the documents. Integrated MQTT for chat in API and Django Admin panel on websocket.

User Management System API

- Tech Stack:** Flask, MySQL.
- Individually designed and implemented high-performance, real-time user management APIs for a client project using Flask, SQL, MySQL, and SQLite3. Focused on efficiency and scalability for handling user operations, integrating an ORM layer for secure, streamlined database interactions.
- This solution ensured rapid response times, data integrity, and seamless scalability, providing a robust foundation for user-centric applications.

ACHIEVEMENTS

Microsoft Azure Certified AI - 900, AZ - 900

Meta Front-End Professional Certificate

Google Cloud Career Readiness / GCP Facilitator
