OBJECTIVE

1.5 years of experience as a Salesforce Developer, adept at analyzing business requirements & implementing solutions within Salesforce Ecosystem. Eager to leverage technical background, problem-solving skills & keen attention to quality in ensuring software reliability & performance. Enthusiastic to apply to an esteemed organization which values innovation & embraces full potential of Salesforce Platform.

EXPERIENCE

Cloudespacio Software Pvt Ltd   **Nov 2023 - Mar 2025**

- Experience in Salesforce development & implementation, focusing on Apex Classes, Triggers, SOQL, Custom Settings & Custom Metadata.
- Hands-on experience in creating custom objects, custom fields, tabs, apps, page layouts, record types, object relationships, formula fields, custom settings, OWD, sharing rules etc.
- Expertise in Lightning Experience Builder & Lightning Component framework for LWC components like Parent-Child communication.

PN INFOSYS (Internship)   **Jul 2022 - Oct 2022**

- Developed & maintained dynamic web applications using Angular, enhancing user experience & interface design.
- Created & tested RESTful APIs using Postman to ensure functionality & performance.
- Utilized GitHub for version control & collaboration on code repositories.

PN INFOSYS (Internship)   **May 2021 - Jul 2021**

- Assisted in design & development of user-friendly websites & web applications, focusing on aesthetics & usability.
- Utilized HTML5, CSS3 & JavaScript to create responsive & visually appealing web pages, ensuring cross-browser compatibility.
- Collaborated with UX/UI designers to implement design prototypes & improve user interfaces based on feedback & user testing.
- Conducted thorough testing of website functionality & performance, troubleshooting & resolving issues.
