CAREER OBJECTIVE

Junior Python Developer with expertise in designing and implementing server-side logic, database interactions, and web-based applications. Proficient in developing scalable and efficient solutions and integrating frontend with backend systems.

TECHNICAL SKILLS

- **Programming Languages:** Python
- **Web Technologies:** HTML, CSS, JavaScript.
- **Frameworks Libraries:** Flask
- **Databases:** SQL, MySQL
- **Tools IDEs:** Visual Studio Code (VS Code), Git.
- **Version Control:** GitHub
- **Development Practices:** Agile Methodology.

PROFESSIONAL EXPERIENCE

Tech Mahindra Ltd
Associate Software Engineer
Project: SBI-Retail Net Banking

Mar 2022 – May 2023
Hyderabad, Telangana

- Designed and developed backend services using Python and Flask.
- Created and optimized SQL queries, stored procedures, and functions for database interactions.
- Developed UI components using HTML, CSS, and JavaScript, integrating them with backend APIs.
- Built and maintained web applications, ensuring responsiveness and performance.
- Collaborated in project planning sessions to analyze business IT requirements and implement solutions.
- Developed and integrated RESTful APIs for seamless data exchange.
- Deployed code to production environments using Git.

EDUCATION

West Godavari Institute Of Science and Engineering | B-Tech2021

- Cumulative GPA: 7.1
- Branch: Electronics and Communication Engineering
- Participated in an intensive workshop focused on Robotics

AKRG Junior College | Intermediate2017

- Percentage: 87

ZPPHS | SSC2015

- Cumulative GPA: 8.8

PROJECTS

SBI - Retail Net Banking

- Developed a full-stack web application using Python, Flask, and SQL.
- Implemented user authentication, role-based access control, and data visualization features.
- Integrated frontend components with backend APIs for seamless communication.
- Ensured efficient database interactions and optimized system performance.

COURSES & CERTIFICATIONS

- Crash Course on Python, Google
- Microsoft Azure fundamentals(AZ - 900) certification, Microsoft
- The Complete Python Bootcamp Zero to Hero in Python, Udemy

PERSONAL ATTRIBUTES

- Good problem-solving and analytical skills.
- Good communication and teamwork abilities.
- Passionate about learning and adopting new technologies.
- Dedicated to writing efficient and maintainable code.
