Professional Summary

Frontend Developer | Crafting Engaging & Scalable Web Experiences

Passionate about building modern, responsive web applications using **React.js, Tailwind CSS, and UI/UX best practices**. Skilled in creating seamless user experiences and always eager to innovate.

Work Experience

Full Stack Intern, *Infotact Soluction*   January 2025 – present

Remote
- Worked on a Data Visualization Project powered by AI, utilizing CSV file processing for dynamic insights.
- Developed scalable full-stack applications using React.js, Express.js, Tailwind CSS, and MongoDB.
- Implemented role-based authentication, database management, and API integrations for secure and efficient data handling.
- Optimized frontend UI/UX and backend logic, ensuring seamless data flow and interactive dashboards.
- Gained expertise in JWT/OAuth authentication and full-stack development best practices.

Front-End Intern, *CareerPhi*   August 2024 – November 2024

Remote
- As a Frontend Developer Intern at Career Phi, I gained hands-on experience in building and enhancing user interfaces using HTML, CSS, and JavaScript frameworks like React.js..
- My responsibilities included implementing responsive designs, optimizing website performance, and debugging existing code. I became proficient in Git for version control
- This internship not only strengthened my technical abilities but also provided valuable insights into teamwork and project management within a software development environment.

Education

Master of Computer Applications,   August 2024
United Institute of Management   Prayagraj, Uttar Pradesh
7.3 CGPA

Bachelor of Computer Application   2021
Jagran College of Art, Science and Commerce   Kanpur ,Uttar Pradesh

Skills

Front-End Development
React.js, HTML, CSS,
Tailwind CSS, JavaScript

**Version Control &
Deployment:**
Git, GitHub

Backend
Node.js, Express.js, Python

Soft Skills:
Logical Thinking, Clear
Communication, Accuracy

Database Management
MySQL, LocalStorage
MongoDB

Projects

My Portfolio Website || *React, Tailwind CSS, React
Icons, Lucide React, Framer Motion* ⌁   December 2024 – January 2025
- Built a **fully responsive** portfolio website using **React and Tailwind CSS**, ensuring smooth
  performance.
- Integrated Framer Motion for seamless animations and transitions.
- Implement also made an accessible modal using useRef and forwardRef.

Employee Attendance Tracker || React.js, Tailwind CSS, Local Storage ⌁   Oct 2024
- Developed a web-based attendance tracking system to log employee check-ins and check-outs, display
  attendance history, and auto-mark absentees.
- Leveraged React (Vite) and TailwindCSS for a responsive and user-friendly interface, with Local
  Storage ensuring seamless data persistence.
- Designed features for accurate time logging and manager oversight, enhancing attendance management
  efficiency.

IMDB Clone || React.js, Tailwind CSS, Local Storage ⌁   February 2024 – March 2024
- Developed a web application using React, Vite, and Tailwind CSS to replicate IMDB-like functionality.
- Integrated the TMDB API to dynamically fetch movie data. Key features include adding and delete
  movies to a persistent watch list using Local Storage, filtering movies by genres, and search
  functionality for efficient movie navigation.
- Designed a responsive and modern user interface optimized for all devices.

Certificates

IT & Math's Course:
*Introduction to C/Python,
Object-Oriented Programming
(OOP), Web Technology,
Database*
*Management Systems,
Statistics, Numerical Methods.*

Python Course
Udmy (July 2024)

Data Analyst Career Path:
Microsoft-Learning *(March 2024)*

The Django Course: Full Stack Python Course
UIT (December 2023- January 2024)
