Summary

Software Engineer with 3 years of experience building high-quality web applications. Skilled in Nodejs, PHP, SuiteCRM, Laravel, and MySQL, with a strong foundation in OOP and clean code practices. Adept at tackling complex problems, implementing unit tests, and integrating APIs. Possesses excellent communication skills and is eager to leverage expertise within a dynamic and innovative team environment

Work Experience

TechEsperto Solutions Private Limited

SOFTWARE ENGINEER

- Designed and developed to streamline data retrieval and presentation using SuiteCRM.
- Implemented efficient bundling and unbundling of data to enhance performance and usability.
- Conducted thorough sanity testing to ensure the reliability and stability of the system.
- Provided production release support, ensuring smooth deployment and troubleshooting of live systems.

Noida, UP
February 2024 – Present

Redian Software Private Limited

SOFTWARE DEVELOPER

- Completed comprehensive training in PHP, SuiteCRM, and SQL, gaining proficiency in full-stack development.
- Developed multiple mini projects to apply and enhance skills in web application development.
- Gained hands-on experience in building and integrating front-end and back-end functionalities.

Noida, UP
March 2023 – February 2024

Vasi Gateways Private Limited

TRAINEE

- Assisted in developing and maintaining software projects under expert supervision.
- Enhanced foundational knowledge of software development and applied it in real-world scenarios.
- Gained hands-on exposure to industry best practices and tools.

Noida, UP
September 2022 – March 2023

Skills

Programming: C, C#, PHP, JavaScript, jQuery, Ajax
Framework: Laravel, CodeIgniter, Angular, ReactJS
Backend & Cloud: Nodejs, SuiteCRM, MYSQL, AWS, REST API
Other: Git, JSON, Linux, Bootstrap

Projects

• HIPAA-Compliant Data Management System for Drug Addiction Treatment

- Designed a system ensuring HIPAA compliance for secure patient data management.
- Developed an intuitive user interface using React JS.
- Implemented a Pimcore-based backend for efficient data handling.
- Integrated query forms for treatment agencies to collect patient information.
- Enhanced agency workflows with streamlined data management.
- Ensured strict security protocols to safeguard patient information.

Technologies: Node.js, React JS, MySQL.

• Geta a mover (<https://www.getamover.co.uk/>)

- Connects customers with the best removal companies, saving time and money.
- Ensures access to reliable moving services across various locations.
- Helps removal companies receive direct requests from customers actively looking for moving services.

Technologies: Laravel (PHP), MySQL, JavaScript, HTML, CSS.

- **Allied engineering works(AEW)**

- Developed and implemented a smart service solution to automate the end-to-end process of meter installation, from consumer indexing (CI) to meter installation (MI).
- Designed and implemented a custom SuiteCRM module to track sales and customer interactions.
- Created custom reports for agent performance, SLA tracking, and ticket resolution.
- Developed jQuery-based form validation for text editor fields.
- Streamlined warehouse management and field operations, reducing errors and improving installation timelines for utility companies.

Technologies: PHP, SuiteCRM 7, MySQL, JavaScript, jQuery.

- **Runpaisa (<https://runpaisa.com/>)**

- Designed and implemented MVC architecture to ensure scalability and maintainability.
- Developed custom controllers, models, and views to handle core financial transaction functionalities.
- Integrated third-party APIs for payment gateways, banking services, and financial data retrieval.
- Optimized database queries to enhance performance and improve transaction speed.
- Implemented secure authentication and role-based access control to ensure data security.
- Developed AJAX-based interactive features to improve user experience and platform responsiveness.
- Handled deployment, debugging, and performance optimization to ensure system reliability.

Technologies: CodeIgniter (PHP), MySQL, JavaScript (jQuery/Ajax), HTML, CSS, Bootstrap, REST APIs.

Education

- **Feroze Gandhi Institute of Engineering and Technology**

B.TECH IN COMPUTER SCIENCE & ENGINEERING

Reabareli, India

August 2018 - June 2023

- **Govt. Polytechnic Shahjahanpur, Shahjahanpur**

DIPLOMA IN COMPUTER SCIENCE & ENGINEERING

Shahjahanpur, India

August 2014 - May 2018

- **Pt. R S M Inter College, Allahabad**

HIGH SCHOOL

Prayagraj, India

April 2013 - March 2014
