PROFESSIONAL EXPERIENCE

Wordpress Developer, Apcomp Infotech:

JUN 2023 - Present

As a WordPress Developer at Apcomp Infotech, I created custom, responsive websites using PHP and WordPress, focusing on client needs, user experience, and website optimization.

- Custom WordPress Development: Building and customizing themes, plugins, and modules to deliver unique and functional websites.
- PHP & Front-End Development: Writing efficient, clean PHP code and utilizing HTML, CSS, JavaScript, and jQuery to build interactive, high-performance web pages.
- Responsive Design: Ensuring websites are mobile-friendly, cross-browser compatible, and fully optimized for desktop and mobile users.
- UI/UX Design: Designing intuitive user interfaces that align with brand identity while ensuring an engaging and seamless user experience.
- Website Maintenance & Updates: Regularly updating websites with new features, security patches, and performance improvements.
- SEO Optimization: Implementing best practices to improve website visibility and search engine ranking.

Magic Software Pvt.ltd :

JUN 2021 - May 2023

Website design is the process of creating visually appealing and user-friendly websites that meet specific goals. It combines aesthetics with functionality for easy navigation and optimal user experience.
