WORK EXPERIENCE

Backend Developer at Vyzion innovation

15 April 2024 – currently working

VRR Towing & Parking App (Django, Flutter for iOS)

- Built the backend system for managing towing operations and parking spot bookings under authorized contractors in the U.S.
- Developed iOS UI in Flutter, integrating real-time booking, notifications, and vehicle management features.
- Structured APIs and logic to support role-based access for users, contractors, and property owners.

AI Chatbot System (FastAPI, NLTK, NLP)

- Developed backend APIs and database schema to power a smart chatbot platform that provides contextual query handling.
- Integrated NLP with NLTK to interpret free-text user input and detect inappropriate content.
- Enabled intelligent query resolution by recognizing user intent and suggesting topic-based solutions dynamically.

Sales Management System (Django, Flutter)

- Created secure REST APIs for both admin and user roles to manage product listings, sales transactions, and user activities.
- Designed and developed the frontend using Flutter, delivering a clean, responsive user interface across devices.
- Implemented role-based access and real-time updates to streamline inventory and sales management.

EDUCATION

Post Graduation

Course MCA(Computers)

College- uttaranchal University

Grade 69%

Graduation

Course BCA(Computers)

College - Amrapali Institute

Grade 60%
