About Me

I am a software developer with hands-on training in building functional web applications using PHP and MySQL. As a fresher in backend development, I have developed a strong foundation in creating dynamic websites and performing CRUD operations using PHP. Additionally, I have experience working directly with clients at their offices to bridge communication between them and my company, ensuring their requirements are well understood and accurately implemented in their projects.

Technical Skills

Language:- JavaScript, PHP.

Web Development:- HTML5 , CSS3 , JavaScript OOPS, DOM Manipulation , ES6 , Async JS , API , CRUD Operations, PHP OOPS , Mysqli, PDO, Git & Version Control .

Web Dev Tools:- VS Code, Postman , Chrome Dev Tools , GitHub , phpMyAdmin.

Database:- SQL.

Work Experience

Associate Executive Technology | Innobles Smart Technologies

[Dec 2024 - Present]

Backend Development:

- Implemented backend functionalities including data storage and retrieval, user authentication, API development, and input validation using PHP.
- Implemented Security functionality like Cross-Site Request Forgery exploitation

Database Management:

- Designed data models and managed MySQL databases using phpMyAdmin.

Client Collaboration:

- Worked directly with clients to gather requirements and act as a communication bridge between clients and the IT team, ensuring clear documentation and regular progress updates.

PHP and JavaScript Developer | Param Computers

[Oct 2023 – Nov 2024]

Frontend Development:

- Designed and implemented responsive and user-friendly frontend interfaces using HTML5, Bootstrap, and CSS3.
- Integrated Redux Toolkit for state management to ensure a seamless user experience.

Backend Development:

- Implemented robust backend functionalities using Node.js and Express, handling API requests and business logic efficiently.
- Developed RESTful APIs to interact with the frontend and manage data flow to and from the MongoDB database.

Database Management:

- Designed and optimized MongoDB database schemas to ensure data integrity and performance.
- Implemented CRUD operations and data validation to maintain data consistency.

PHP Developer Intern | Sembark Travel Software (Internship)

[Apr 2023 - Jan 2024]

Frontend UI Development:

- Created captivating and user-friendly frontend UIs utilizing HTML, CSS, and JavaScript.
- Ensured seamless navigation and visually appealing designs for enhanced user experience.

API Integration:

- Developed and integrated APIs specifically for user authentication and authorization to ensure secure access control.

Backend Development:

- Performed CRUD operations using PHP forms.
- Created APIs for authentication and authorization.

Educational Background

Web Development and Coding

Masai School, Bengaluru
April 2022 - Oct 2022.

Graduation

Bundelkhand University , Jhansi
April 2017 - April 2020

Post Graduation

Bundelkhand University , Jhansi
April 20 - April 2022
