- Deployed with CodeIgniter/MySQL and optimized for performance and scalability

Ticket Management System (CRM) – *GST Suvidha Kendra*

- Designed and developed a CRM system to manage loan and insurance leads, improving sales and client conversion..
- Built a dashboard with real-time insights on lead status, follow-ups, and conversions to support business decision-making.
- Added features for automatic reminders, notifications, and follow-up scheduling to boost customer engagement.
- Integrated secure authentication, role-based access (Admin/Agent), and audit logs for compliance.
- Deployed with CodeIgniter/MySQL and optimized for performance and scalability

Skills

Backend Development
Proficient

- Laravel Framework
- Codeigniter Framework
- PHP
- RESTful API Development
- MySQL / Database Design & Optimization Authentication & Authorization

Frontend Development
Proficient

- HTML5, CSS3, JavaScript Blade Templating Engine

Tools & Technologies
Proficient

- Git
- Composer & Laravel Artisan CLI Postman
- Debugging Tools & Performance
- Optimization PHPUnit (for testing)

Development Practices
Proficient

- MVC Architecture
- HMVC Architecture
- Code Reviews & Version Control CI/CD

Languages

- English
- Hindi
