Summary

I am a B.Tech graduate in Information Technology with a CGPA of 8.2. I hold a strong foundation in Python, algorithms, data structures, SQL, and Excel, coupled with proficiency in web development using Node.js and MongoDB. I have experience developing web applications and an online recruitment portal, showcasing my problem-solving and technical skills. I am passionate about leveraging my knowledge to develop innovative solutions and contribute to successful projects

Experience

Ardent Computech PVT LTD
Kolkāta, West Bengal
Project Intern
07/2024 - 08/2024

- Designed and implemented a comprehensive recruitment portal using React.js, Node.js, Express.js, and MongoDB
- Developed key features such as job postings, candidate applications, and employer-candidate interaction
- Utilized VS Code for coding, MS Office for documentation, and Draw.io for architecture visualization
- Focused on usability, scalability, and real-time data handling
- Applied RESTful API design to connect front-end interfaces with backend data services
- Prioritized scalability, performance optimization, and mobile responsiveness throughout the project lifecycle
- Utilized Agile methodologies to plan, execute, and track project progress
- Collaborated with cross-functional teams to deliver projects on time
- Executed comprehensive risk assessments to meet project goals

Mecon Limited
Ranchi, Jharkhand
Project Intern
06/2023 - 07/2023

- Developed responsive and dynamic web applications using C# and the ASP.NET framework
- Implemented user authentication modules, allowing secure login/logout functionalities
- Integrated backend services with SQL Server databases for efficient data storage and retrieval
- Focused on enhancing performance, scalability, and data security
- Contributed to front-end interface optimization, improving UI responsiveness
- Assisted in debugging, unit testing, and code reviews
- Led stakeholder engagement workshops to ensure project alignment and goals
- Collaborated with cross-functional teams to deliver projects on time
- Utilized Agile methodologies and project management software for tracking

Finanalyz private limited
Hyderābād, Karnataka
Python Developer
12/2024 - 10/2025

- Developed a recommendation engine for personalized financial planning solutions using Python and ML
- Built intelligent banking product recommendation systems
- Designed and deployed a chatbot using LLMs for financial queries
- Implemented forecasting models using historical transaction data and analysis
- Contributed to LLM-based solutions across various financial domains
- Created a recommendation system for insurance products
- Developed backend logic and APIs for Insurance and Capital Market Analytics
- Designed predictive analytics models with regression and classification algorithms
- Analyzed operations to improve company performance and cost reduction

Experience

Paytm
Noida, India

MIS Executive Intern
10/2025 - Present

- As an **MIS (Management Information System) Intern** at Paytm, your main responsibility is to collect, manage, and analyze business data to support decision-making and performance tracking
- **Key Responsibilities**:
- Collecting and maintaining large volumes of data from various departments.
- Preparing Excel dashboards and reports to track business performance.
- Performing data analysis to find trends, insights, and irregularities.
- Coordinating with teams to ensure smooth data flow and accurate reporting.
- Creating Power BI or Tableau dashboards for management review.
- Monitoring key performance indicators (KPIs) and highlighting issues.
- Supporting automation of reports using Google Sheets macros or Python (optional).
- **Tools Commonly Used:**
- MS Excel / Google Sheets – for data entry, formulas, pivot tables, and charts.
- SQL – for data extraction and queries from databases.
- Power BI / Tableau – for creating data visualization dashboards.
- Google Data Studio – for online dashboard creation.
- MS PowerPoint – for management presentations and summaries.

Education

Bengal College of Engineering and Technology
Durgapur, India

Bachelor of Technology In Information Technology

Bihar Board OF Open Schooling And Examination
Patna, India

Senior Secondary Examination (72%)

Key Achievements

⚡ **Technical Proficiency and Achievement in Projects**

Successfully completed projects on web development and an online recruitment portal, showcasing problem-solving and technical skills

Skills

Python · Power BI · SQL · NLP · LLM · Streamlite · Django · Pandas · Numpy · Machine Learning · Flask · Mongodb · RAG · Artificial Intelligence · Deep Learning · Jyupter Notebook · Advance Excel · Gen AI · Jira · Pytorch · Tensorflow · Mlops Tools · JavaScript · Your Skill

Interests

⚡ **Extracurricular Engagement and Creativity**

Actively participated in diverse extracurricular activities, including debates, group discussions, workshops, technical quizzes, music, dance, drama, elocution, seminars, painting, performing arts, photography, and filmmaking, demonstrating creativity, teamwork, and versatile skills
