EXPERIENCE

Zebraffe Technologies Limited — PHP Developer | Nov 2024 - Present | Noida Uttar Pradesh, India

- Developing and maintaining web applications using PHP, HTML, CSS, and JavaScript
- Built and deployed the company website: www.zebraffe.com
- Worked on logistics modules such as Transport, Owner, Vehicle, and Driver Registration

Antonia Solutions Pvt. Ltd. — Full Stack Web Developer | Ghaziabad, India

- Worked on end-to-end website and application development using PHP, HTML, CSS, JavaScript, and MySQL

PROJECTS

GoCarriage – Truck-Based Import & Export Logistics Platform (www.gocarriage.com)

A logistics platform designed to digitalize and streamline truck-based import and export operations for transport companies, truck owners, and logistics partners. The platform enables users to manage shipments, assign vehicles, schedule trips, and track deliveries in real time.

- Core modules developed: Owner, Driver, Vehicle, Transporter Registration & Onboarding
- Built backend using PHP & MySQL with structured database schema for scalable workflow
- Implemented features for shipment booking, trip scheduling, delivery tracking, and multi-location route assignments
- Developed user-friendly screens for transporters to manage vehicles, assign drivers, accept customer requests, and monitor active shipments
- Tech Stack: PHP, MySQL, HTML, CSS, JavaScript

Zebraffe Technologies – Company Website (www.zebraffe.com)

Developed the official company website for Zebraffe Technologies to showcase services, company profile, and digital offerings. Focused on clean UI, strong performance, and a responsive user interface across devices.

- Designed and developed the website using PHP, HTML, CSS, and JavaScript
- Created structured navigation, service pages, and reusable components
- Ensured mobile responsiveness, fast loading, and professional layout

STRENGTHS

Quick Learner, Time Management, Clear Communication, Openness to Feedback
